Our installer was very nice and helpful. He offered other suggestions on where to put our camera and we ended up liking his idea better than our original plan. Highly recommend them!

Recent customer 2/2020 ★★★★★ March 01, 2020

Slightly more expensive than the other options but the guy who installed it was polite, professional, and very knowledgeable. Was nice knowing a very competent person was doing the install instead of someone less experienced for cheaper. Highly recommended.

These guys are great. Upon first call they were kind and informative. Also gave me the best price. I got an alert before they arrived so I was prepared (nice touch!). It was non-invasive and quick, and they even stayed around afterwards to walk me through the app and how to use the product and customize it how it best feeds my needs. Definitely would recommend!

Jennifer ★ ★ ★ ★ ★ December 17, 2019

Awesome customer service! They responded to me in less than 24 hours and we're even kind enough to do some trouble shooting over the phone. When it became clear it wasn't something I could fix they were able to send someone out same day within the hour! The gentlemen who came was polite and professional and he took the time to show me some tips about the device and the app! I highly recommend this company!

Just had nest hello installed by Marvin and he was incredibly helpful and polite. The final installation was perfectly angled and clean, I was worried that the cord for the outlet would be annoyingly visible but Marvin did a great job placing and securing the cord to make it

barely noticeably. He also walked me through the app and answered any questions I had. Overall, I am very happy with the results and I will definitely use this company for future smart home installations.

Unify Smart Home The 2 star is because of the lack of expertise and knowledge of what the company is installing. They wasted 4 hours and the installation was not completed. This company is supposed to have NEST certified expert technicians installing these security locks and cameras in your home. On Saturday I did not meet a certified expert technician. I paid \$240.00 to this company and installation was never completed. I had to complete the job myself

Andrew ★ ★ ★ ★ ★ October 16, 2019

They were good - professional. I had to get a bit more involved with the labor as we ran into some challenges but it was what it was and we worked through it. There was also a bit

of accidental damage done to baseboard but it was truly accidental (I saw it happen) but it happened and it would be expensive to repair.

Anonymous ★ ★ ★ ★ ★ October 09, 2019

The tech was very polite and pleasant person. He run into an issue with old and add wiring from existing old thermostat, though patiently troubleshoot step by step, resolved an issue, and made new Nest working. The nest pro installer created an extra hole on my wall. The word was done but it was sloppy. I brought it up to Randy but it was ignored. Probably because it would have taken more time to fix properly by repatching, sanding, and painting. Next, the estimated time for the project was way off. I was told about an hour but it took nearly 3 hours. Wasted another hour when they came back to fix the hole. And last, the nest pro installer did not go over the settings with me to have the cameras working optimally such as quality and bandwidth, close up tracking, night vision, zone, etc. At the end, the work was subpar.

Anonymous ★ ★ ★ ★ ★ October 05, 2019

Unify Smart Home was wonderful to work with. Randy, the sales rep, answered all of my questions and handled the timing and logistics of our installation. It has been 8 months since Unify deployed their smart home devices around my new house and I am thoroughly satisfied. Unify was not the cheapest vendor but they were by far the most knowledgeable. They recommended Nest over other brands and I am very happy that I took their advice. I am one who looks to do things myself but in talking to Unify I realized how little I knew and entrusted them. Once hired, they told me that it would take a day to deploy the devices and system for my house but it actually did not even take that long. Like any smart home, it takes time to optimize all the settings. They came out numerous times at no extra cost to fine tune my implementation. They have always been available for support. I have come to learn a lot more about smart homes by now but do no regret having hired them -- I do not know how I could have done it without them. And as a result, I feel much more secure at home but I also feel in complete control of my house with very little frustration.

Super satisfied with the install. Originally I planned on installing two Nest IQ cameras but due to HOA regulations was unable to. The Unify representative was able to offer alternatives which would meet my requirements (monitoring of front door) and install them during the visit. What's most important to me is that there was no additional upcharge on the hardware provided. The price I was charged is the price I would have paid ordering online. Installer was super friendly and got the job done quickly.

Marvin was very professional and efficient in his installation of my Nest x Yale lock and Nest doorbell! Since we have a mechanical doorbell and I wasn't sure about the voltage of my transformer, I decided to go with professional installation. Though Unify is not the cheapest installer, I was impressed by their quick response to my inquiry for a quote, and Bob answered all my questions about any possible difficulties. Unify called the day before to confirm my appointment details, and Marvin (installer) arrived promptly. He walked me through setting up the Nest Connect, my next account, and how to use my new Nest devices. Unify obviously takes pride in its professionalism, and I wouldn't hesitate to choose them in the future for other Nest installation needs.

Unify Smart Home excelled in three key areas. 1) RESPONSIVE (Of the 4 service providers I contacted at the same time, Unify's Randy was the first to respond and respond quickly. He was also able to offer me a next day/weekend appointment.) 2) EFFICIENT (Patrick arrived on time and without incident, didn't waste time by getting right to work, and even had the two missing parts that we needed so there were no delays in having our Nest Protects and Nest Hello installed.) 3) KNOWLEDGABLE (Patrick was able to answer all of my questions and had us up and running quickly. Our Nest Pro - Patrick, was super efficient. He was on time and I even got a text update when he was like 15-20 mins away. He was very communicative and friendly and explained me what he was doing while also answering my questions. The whole install job took him like 15 mins. I have installed my thermostat myself previously but was worried this time as I was dealing with a old wiring and a gas heater. Patrick made it seem super easy. He tested the system before and after the install and made sure nothing was misplaced. He even cleaned the bits of wall paint which fell on the carpet during work. Great job!! Highly recommend Unify.

I contacted Nest to buy a few products thinking I was going to have a smart home. Boy, did I get an education! From the beginning when Alicia contacted me, I had no idea what I didn't know. Her questions and enthusiasm opened my eyes to the opportunity of a whole smart home experience - including learning some amazing things you can do with lighting. She and Randy continued to communicate with me through each step of the installation process to ensure the techs were on time and the work was performed to my expectations. They were both always professional and patient when responding to any questions I had. This is one excellent team I will recommend over and over again. Thank you, Alicia, Randy, Patrick, Marvin, and Darrin for the great service and attention to details that mattered to me.

Nest recommend a few different companies and installers for the 9 cameras I wanted installed. I went with Unify Smart Home for many reasons. Primarily because they were willing to install them with a custom setup (I'm a techy guy and wanted things a little more advanced) and high up on my 2nd story eves. The 2nd reason was price. They gave me a great deal on all 9. They arrived today at 9am and text and called me prior to arriving. They were very professional, patient and willing to learn my requested setup. They walked me through the app and installed everything and customized the camera settings so I didn't have to. They were fast, they cleaned up after themselves, weather sealed the holes they drilled, adjusted the camera angles until I was happy (only a few needed adjusting since they made sure the cameras were optimized for 360 degree capturing of my property). All in all I can't say enough good things about them. I would def hire them for any future projects!

Rarely do I give a glowing review but Unify deserves kudos from the initial contact to the finished work. Based on this, I would highly recommend their services to anyone. I needed to have our Nest doorbell installed. The doorbell to be replaced was not functional. The chime was located in the upstairs hallway and the transformer in the utility room downstairs. The installer determined the location of the wiring runs and whether there was adequate current or not. There was current, but the wiring was complicated by additional wires that served an intercom system. The installer offered some options to make the installation work. Because I wanted to move the chimes to the ground level and eliminate the old transformer from its location, the installer suggested the ideal option. The resulting installation worked perfectly. It was completed in a timely manner and in the most professional way. If ever I need relevant work, I will call Unify.

They did a great job installing my camera and doorbell. The installation looks extremely professional and Barr better than I could have her do myself. They also walked my wife and I through the software and enabled our other devices to work with our Nest products.

Patrick called to alert me that he was on his way. He was neat, clean, polite and knowledgeable. The installation hit a couple of snags in my older home and it took longer than expected to install my Nest doorbell. Patrick worked quickly and efficiently, leaving my home as neat as when he arrived. I was actually billed for a bit less than the estimate. I will certainly be calling them for future projects and I'll happily recommend them to friends.

These guys are great! They responded to our initial email within 2 hours on a Friday afternoon. Rhett came out and quoted our home the following Monday. Our Nest system was installed and working like a champ the following Tuesday. The Unify Team: Rhett, Darrin, Damien, Patrick & Alex are all very professional and knowledgeable, and they genuinely want their customers satisfied and happy. Many vendors tout customer satisfaction as a tag line, but these guys truly deliver and I would recommend everyone to

use them. On top of the product, team and service their pricing is reasonable. Overall 10 out of 10 stars!!!!

Amazing customer service! Great communication, showed up on time, very friendly, got the job done fast and efficiently, and did a great job with the installation. Top notch service!!

Patti ★ ★ ★ ★ ★ September 15, 2018

Marvin did an outstanding installing my Nest doorbell. He explained all of the options available to me. I hope to add to my Nest system in the near future. Thank you Marvin, for outstanding customer service.

Quinton Santini ★ ★ ★ ★ ★ September 15, 2018

Very Knowledgeable of the products they were installing Very capable of finding good solutions when the install did not go perfect Very professional and very presentable. Very, very thorough on answering all my questions. Made many good suggestions on what other automations I can utilize down the road. Very likable group of people. Friendly and easy to interact. Very accessible and willing to give me time. Most importantly I felt like they were focused on ensuring I was satisfied as a customer of their services and the products they represented. I am sure I will use their services again as my home automation continues.

Mr. Alex Becker and Marvin were very professional in the installation. They did a very clean and thorough job without damaging walls to pass cables through. I very very impressed with their nice work. Once they finished installation they don't just pack and rushed out. They spent a lot of time explaining about the cameras and how to operate the app. Thank you for your great work Alex and Marvin. And Thanks to Unify for excellent service!

First of, Randy is awesome! He was extremely informative over the phone and answered all questions & concerns prior to booking the appt. He also provided some extra insight on alternative options for wifi extenders to prepare us for the installation. On the day of the appt., Marvin was extremely professional and knowledgeable! Went above and beyond checking our wifi signal to make sure we had all of the equipment we needed (we were able to continue to use the wifi extender we already had, no additional purchases were necessary) to ensure all 3 cameras had sufficient signal and a clear picture. A huge thank you to the Unify Smart Home Team!

I would highly recommend Unify Smart Home for Nest products as well as any other home automation needs. Very professionally and did not leave until we were completely satisfied with the Nest Hello and doorbell transformer installation.

Kraig Chapman ★ ★ ★ ★ ★ September 05, 2018

Kevin and Nick came to my home to install the Nest Hello. However, as I began talking with them I decided to have them also install 2 Nest IQ Cameras. They were familiar with the product, thorough, courteous, and hard working. All products were put in and work fantastically! I wouldn't hesitate to call them out again for another install and I believe next I will be getting the door locks. Overall fantastic job and couldn't be more satisfied.

Tracy ★ ★ ★ ★ ★ September 01, 2018

Alex helped me install 6 outdoor cams and the video doorbell. He's super professional and very knowledgeable about the devices. He went above and beyond to answer my questions and make sure everything was right. The Nest Aware wasn't working for me for the new devices, so he reported back. Both Darren (the owner) and Randy (the director) called me back and helped me contact Nest to resolve the issue. Would highly recommend them to anybody!

I would highly recommend Unify Smart Home for any smart home installation needs! They did an excellent job and were able to walk me through the set up of the cameras. They were also able to install the Nest Hello doorbell even though we didn't originally have a doorbell and did such a clean job with the wiring! Randy and Darron were also extremely responsive and patient in explaining the installation process. I would definitely use these guys again!

This a very professional company, easy to deal with on the phone. We were able to schedule an appointment quickly to have our new Nest thermostat installed. The young gentleman (Kaden) that showed up to do the install was early and very polite and knowledgeable of the equipment he was installing. After the install he took the time to go over the thermostat on how it works and helped me set it up and hooked up to my smart phone. If in the future we add any nest products we will be giving them a call.

Unify really exceeded my expectations. I hired them to install my Nest Camera and Hello doorbell, but they went above and beyond. They installed an August door lock and connected my cameras to the Luton Caseta lighting system they installed. They also integrated it all into my Apple HomeKit to make lights come on when my camera sees someone. The motion sensor that activates my Cafe lights in the backyard was another unexpected feature. I would absolutely recommend Unify to anyone who wants a smart home experience.

Darrin and Damien are very detail oriented, neat, clean, esthetic installed, excellent customer service, always there when needed for advise and support. We have a beautiful lights settings, Nest Thermostats, smoke and CO2 alarm detectors, Sonos speakers, outdoor cameras, Door Ring Bell cameras, August Smart Lock... All of them nicely integrated Alexa voice activated, on site switches and remote controlled by our phones. Out of the multiple home improvements we have ever done, getting a Smart Home is so far our best investment Our kids love it. Turning on and off, switching light colors on command, interacting with their Eco Dot having multiple learning and entertaining activities. Music all over the house... Our house looks much beautiful and safe than what it was before Unified Smart Home came into our property. We highly recomend to all my friends to do it. You will be amazed.

Unify Smart Home was (is) the most professional and accommodating company we have ever worked with. Darrin, Damien, and their team installed a Nest doorbell, thermostat, motion detectors, cameras, Yale keypad door lock, smart light switches, and everything needed to support these items. They are perfectionists in every sense of the word and genuinely nice. Their customer service is amazing! Darrin continues to provide support anytime I need help with any part of the system. I highly recommend Unify, and I can't wait for phase 2 in the near future, Sonos sound and lighting. Thank you, Darrin and team!

We have several nest products that we purchased over the years. Recently one of our nest smoke detectors kept reading no power. After, several tech calls to nest they suggested I have a Nest pro installer come out. I chose Unify Smart Home and they were great. Within know time Damian found the issue. I recommend Unify Smart Home to anyone that is

looking to turn their home in to a Smart home or needs help with any of the Nest products.

Randy easily saved me a couple hundred dollars. I attempted to install my own Nest thermostat, but kept getting a power error. I tried all the online Nest trouble shooting tips, but no success. I contacted >15 Nest Pros, but Randy responded first and it's a good thing. He was honest and upfront, walked me through the most common easy fix and it worked! I'm so happy he saved me because every one of the other 15 Nest Pros were not so helpful and quoted me \$100-200 without even listening to my issue. Randy even called the next day to make sure everything was working ok. Given how honest, helpful, and great his customer service was, I would definitely use him for all future projects...and without a doubt, I highly recommend him for your Nest Pro and smart home needs..

Medley Communications did an install last week for me on 2 Nest thermostats (upstairs and downstairs). The installer, Damien, was on time, dressed professionally, and extremely courteous. After the install, he took the time to teach me and my wife how to not only use the Nest and set up schedules, but he also helped me integrate it with my existing home automation (Amazon's Alexa). In my opinion, he went above and beyond a typical install. I would highly recommend Medley Communications for your Nest installation and home automation integration needs.
